Presentation by Florinda Rojas, Executive Director, *Instituto Nacional de Migración*, Dominican Republic

The Dominican American National Roundtable (DANR) is the only national nonprofit, nonpartisan organization based in Washington, DC, advocating for the socio-economic and civic development of Dominicans in the United States. DANR is presided over by a National Board of Directors led by an executive committee composed of a president, a vice president, a youth president, a chairman, a treasurer, and a vice president representing Puerto Rico and the U.S. Virgin Islands.

The National Dominican American Council (NDAC) is a civic-community-engagement and public relations entity composed of local member councils in the United States and territories, including Puerto Rico and the Virgin Islands, with the role of setting the national agenda and working jointly with the [Dominican American National Roundtable \(DANR\)](#) and progressive entities advocating for the socio-economic and political enfranchisement of all Latinos and Dominican-Americans in areas concerning education, economic development, health, immigration and community empowerment.

9:00AM - 10:30AM Plenary Session

Herbert M. Ellend Atrium

Conversation about formulating better social and public policies in the Dominican Republic to the benefit of immigrants and all Dominicans around the world

This plenary session offers a roundtable discussion about Executive Order # 631-11, emitted by the President of the Dominican Republic, creating The National Institute of Immigration known in Spanish as “El Instituto Nacional de Migración (INM-RD)”. El Instituto’s main objective is to help formulate immigration policies in the Dominican Republic that would better address the status of immigrants and visitors, and particularly Dominicans from around the world. The INM-RD aims at recommending efficient, transparent and safe migratory services, while promoting respect for human and civil rights in accordance to international laws.

INM-RD was originally created to assist the Dominican government in formulating better public policies to prevent problems generated by DR Constitutional Court’s Sentence 168-13 and by the implementation of the DR Citizenship and Naturalization Act and the National Regularization Plan to Adjust the Status of Foreigners known in Spanish as “El Plan Nacional de Regularización de Extranjeros”. The plenary session will also consider DR foreign social policy aimed at assisting Dominicans facing socio-economic contingencies around the world.

Esta sesión plenaria es una conversación-Mesa Redonda sobre la Orden Ejecutiva N° 631-11, emitida por el Presidente de la República Dominicana creando el “Instituto Nacional de Inmigración (INM-RD)”. El Instituto tiene como objetivo principal ayudar a formular políticas de inmigración, públicas y sociales que permitan a la República Dominicana tratar más efectivamente con la situación presente de los inmigrantes y los visitantes al país, y dominicanos residentes atreves de todo el mundo. El Instituto recomienda al gobierno dominicano políticas que de manera eficaz, transparente y segura ofrezcan servicios migratorios, respetando los derechos humanos y civiles conforme a las leyes internacionales.

INM-RD fue creado originalmente para asistir al gobierno dominicano en la formulación de mejores políticas públicas para prevenir los problemas generados por la Ley 168-13 d168-13 del Tribunal Constitucional de DR y por la aplicación de la Ley de Ciudadanía y Naturalización de DR y el Plan Nacional de Regularización de Extranjeros. La sesión plenaria examinará también la política social de la República Dominicana encaminadas a asistir a los dominicanos en el exterior a tratar su condición socio-económica y cívica: status migratorio, deportación y otros asuntos.
